The sign is mounted on a dark brick wall. Below the sign, a window shows the interior of the gym, with a white exercise machine visible.

Ability to scale and evolve hindered

With big ambitions to grow, Evolution Fitness XL was increasingly held back by barriers created by existing systems and ways of working.

“We needed an all-in-one solution that could handle all the member billing for us now and in the future, as well as general member management and marketing. We would spend hours a day reconciling and manually processing payments. Our collection rates needed to be better. We needed a system that would automate these processes and improve efficiency and collection success.”

Mike Garner
Director of Evolution Fitness XL

Growing member numbers left the team facing billing challenges. Hours each day were spent reconciling and manually processing membership payments – negatively affecting collection rate success.

Driven by this challenge, Evolution Fitness XL decided it was time for a change. The club was on the hunt for an all-in-one gym management solution that could handle all member billing and more.

They wanted a scalable solution that could cope with any amount of growth and complexity. And beyond billing, provide all the membership management and marketing automation tools needed.

It needed to be easy for the team to learn and use, with a cutting-edge user experience to match the expectations of members.

They wanted a true partner, to help them make their growth plans a reality. A partner invested in the success of Evolution Fitness XL. There to help tackle future challenges.

More time to create exceptional member experiences

In 2021, Evolution Fitness XL decided to partner with Xplor Gym to solve the challenges the business faced.

By choosing the Xplor Gym all-in-one club management solution, Evolution Fitness XL has been able to significantly reduce admin work. Having membership payments embedded within the solution has streamlined financial processes. No more reconciliations.

Evolution Fitness XL has automated the whole billing process. Resulting in a higher success rate of membership collections. Ultimately, creating reliable income without having to manually chase payments.

The team is now able to devote more time to delivering an exceptional member experience. Xplor Gym provides a real-time 360°-member view, so the Evolution Fitness XL team always has the information they need when serving members. And can rely on the marketing capabilities the software offers to communicate with members even when they're not at the club.

Getting started with Xplor Gym has been easy. With an intuitive and easy to navigate interface, the Evolution Fitness XL team got up to speed quickly. The staff love using it!

“Xplor has a team that is second to none. They make themselves available to help when we need. The aftercare team goes above and beyond every single time for us. Xplor Gym is a true partner, not just a software supplier. The Xplor Gym team works alongside us to ensure we are set up for success.”
